SUMMARY

Registered Environmental Planner and 2026 Environmental Science graduate of Caraga State University. Most of my project work is GIS-based: flood and slope hazard mapping, land suitability analysis, and the spatial inputs for Comprehensive Land Use Plans and Environmental Impact Statements. Seeking an Environmental Planner position.

EDUCATION

Caraga State University — Ampayon, Butuan City
Bachelor of Science in Environmental Science — 2026

- Relevant coursework: GIS in Environmental Planning; Environmental Impact Assessment; Watershed Ecology; Natural Resource Economics; Environmental Policy and Law (PD 1586, RA 10587, RA 9003, RA 9275).

EXPERIENCE

Regional Resource & Geospatial Solutions Laboratory, Caraga State University — Butuan City
Environmental Planning & Spatial Analytics Specialist (Lead Practicum) — June 2026 – Present

- Built a flood-risk model in ArcGIS Pro for 12 sub-catchments of the Agusan River basin, combining 10-year flood recurrence, slope, and population density data.
- Mapped 180 hectares of riverside retention zones used in the local zoning revision; the model projects a 32% drop in seasonal flood exposure.
- Wrote the technical report and thematic maps, following DHSUD guidelines for disaster risk reduction and climate change adaptation.

Environmental Systems & Regulatory Compliance Consult — Caraga Region
Environmental Impact Assessment Preparer & Technical Researcher — March – August 2026

- Collected baseline data for industrial facility proposals under PD 1586: water quality, ambient noise, and a flora and fauna inventory.
- Drafted the Environmental Management and Monitoring Plans, including closed-loop drainage and vegetated buffers; the project received DENR-EMB approval.
- Organized public consultations with barangay councils, civic groups, and regulators; no formal objections were filed during public review.

GrowMate Digital Agriculture & Youth Agri-Business Initiative — Northern Mindanao
Resource Analyst & Sustainable Agriculture Consultant — January – June 2026

- Assessed land capability on 45 hectares of smallholder farms and recommended soil conservation measures that lowered fertilizer runoff risk by 24%.
- Turned field survey data into crop-planning guides for the initiative's young farmers.

LICENSES & CERTIFICATIONS

Registered Environmental Planner, Professional Regulation Commission — Reg. No. 0006842, valid to 2029
Certified GIS Professional, Esri Academy — ESRI-GIS-2026-89412, July 2026
Accredited EIA Preparer, DENR Environmental Management Bureau — EMB-EIA-2026-0819, valid to 2029
CLUP Formulation Training (40 hours), DHSUD Region XIII — R13-CLUP-0429, June 2026
Advanced Spatial Analysis (40 lab hours), CSU Center for Resource Assessment, Analytics & Geospatial Solutions — CSU-GIS-TP-2026-0841, July 2026

SKILLS

GIS: ArcGIS Pro, QGIS, Spatial Analyst, hydrological modeling, multi-criteria evaluation, thematic mapping
Planning: CLUP formulation, zoning ordinance drafting, DRR-CCA mainstreaming, land suitability classification
Fieldwork: baseline environmental surveys, water sampling, flora and fauna inventories, public scoping
Laws: RA 10587, PD 1586, RA 9275, RA 8749, RA 9003, RA 10173
